PROSPECTUS OF A new Story on an old Subject.

THE AUTHOR, in presenting the following work to the public can not but feel that he has an ardness task to perform in catering to the public case, and has somewhat digressed from the established rules, and customs of authors by taking its ambies takes. perform in catering to the public are, and has somewhat digressed from the established rules, and customs of authors by taking up a subject which, if corefully persued, and the advice herein contained followed, the ambition of the author will be gratified to its utmost extent, and the object of this work will have been attained, viz: to put money in my pocket and to give to the careful and indulgent reader a literary treat through the agency of the digostive organs. It might perhaps be necessary to state, that the most of the manuscripts from which this tale was founded was taken from an old dress pocket found in a find hand Clothing Store a few weeks since in New York by the author, and originally owned by the indentigable Mas. Toodles, at once conveying to the mind of the reader that a bargain may be expected. Hoping the kind and indulgent public will excess any blunders and look with a patronicing one upon my humble efforts to procure for them 1st, 5 chests of Imperial and Black Tens, the finest ever brought to this market, and put up in such a shape that every one can see it for themselves. Still keeping in view that philauthropic principle which actuated me to purchase of the importers a choice selection of Mocha, Old Gov Java and Baltimore Rio Coffees. I must not digress so far from my subject as to forget that I also laid in a bountiful supply of Baker's Broma and French Chocolate, an excellent marning drink for my nervous reader in these troublous political times. In compiling the forthcoming work I shall "Milate" pretty extensively on the meria of "Ye Fy" The following extract taken from the "Bang"-letown Fassett will convey some idea of the attention paid to that valuable insect:

"We take great pleasure in accouncing that a celebrated author from one of the Western States is now in our city collecting specimens for a fortheoming work, upon which he is engaged. We notice a large invoice of the gennine "Heidrick Champayne." Together with a full assortment of choice Wines and Liquins, among which the justly celebrated Tchernay Brandy, all of which the liberal author intends to treat his many readers, to or as many of them who have the magnamity to pay for it. We wish the author success to his new work, which is to be called "I's F'y."

called "Is Fig."

As the author feels incompetent to proceed in that Flour'y style so common with writers of the present day, he begs to say that in itsproper place in the work he will serve up 800 bags of that indespensable article in 25, 50 and 100 lb bags, thereby leaving it at the option of the readers to Flour to their own taste. For "fear" (and what author is without it) that this stupendous enterprise might end in "smoke" the author has carefully laid in a large and choice collection of "Separa," which will give each reader an opportunity of sustaining the author by giving him s "par," and furthermore, in order to veryity the him s "put", and furthermore, in order to veryity the oldProverb of where there is so much smoke there must be some fire, the compiler of these valuable manuscripts has added a heavy stock of "Katches". I have employed a substitute, which I cannot but believe is of a more substantial nature, viz: a choice assertment of Natureys, Ginger, Commons, Cloves, French, English and Kentucky Mustards, Allegree, Pepper, ground and unground, Catesps of different varieties, Warestorchers John Bull and Harvey Sauces, and in the place of swestening the many beautiful passages, which will occur from time to time with mondight rays, replier breezes, and the nector sip'd from the pure tips of announce, I have employed the more powerful argument of Powdered, Crusted, Losf, Clarified and Granulated, and different degrees of Brown Sugars combined with the more liquid attenues of Reboiled, Sugar House and Plantation Melasses, and of Reboiled, Sugar House and Plantation Melanes, and the bright and flowing Golden Syrop.
